ATTN : Project Comptroller

Project Communications Officer

**Landline Costs in U. K. and Germany**

ILLEGIB

25X1

1. Your office is hereby advised that landline circuits, in support of Project AQUATON Communications, are required between the [redacted] Base Station in Croughton and South Ruislip in the United Kingdom and between the [redacted] Base Station in Rhine Main and Siegelbach in Germany. These landlines will be leased for the duration of operations in the European area.

2. The appropriate Senior Officers in the United Kingdom and Germany are being directed to arrange these landline circuits and also to estimate leasing costs. Upon receipt of the estimated costs for these services, it is requested that an obligation of funds be made under the proper allotment symbol to cover the expenditures. A procedure for disbursing these funds will be effected after discussion of the matter between the Project Comptroller and the undersigned.
